New News

Paul Newby at the Temple Hills Church Camp has projects available to get the camp up and running for the next season. Possible Eagle Projects available for Scouts in the Troop. Is willing to let us use the camp facility for our JLT program if we can help with the projects around the camp. They would provide the materials if we provide the man power to get the work done. The work would be done in May. The camp is in the Mill Creek Area above the Snowbank Campground. Would like to receive help every year. Just need to make sure that the work days for the camp do not interfere with the Spring Camporee.

Council/District still has plenty of popcorn to be sold. Any Troop is welcome to it at a 50/50 split
